UNSC DELUXE FLIGHT TOKEN SET

Small spacecraft play an important role in the **Halo: Fleet Battles** tabletop game, allowing players to field Wings of Broadsword Interceptors and Longsword Bombers, and the all-important Pelican Boarding Craft. Inside the standard boxed sets, we provide punch-out card tokens to represent these Wings, but with this new UNSC Deluxe Flight Token Set players can replace their one-dimensional card tokens for stunningly detailed resin models instead! The Flight Tokens sit on individual resin stands and use micro dice to indicate Wing strength, and red coloured dice show if a Pelican Boarding Craft has Spartans on board.

Tokens and Bases supplied unpainted.

26 HIGHLY-DETAILED FLIGHT TOKENS
plus 26 RESIN BASES and 24 MICRO DICE

Also available in the HALO: FLEET BATTLES range of products:
